AN OLD SOUVENIR.

Dr. F. Harnesberger of Beckville, writes to the Dallas News as follows: "I noticed in yesterday's News an account of a "relic of the campaign of 1860-a button worn by partisans of Douglas and Johnson." and found by Mr. Hawley at Hutchins. I have a souvenir of the campaign of 1840. which takes us back sixty years, and to the hottest campaign ever waged in this country. The souvenir is apparently pure copper, and is nearly the size of a half dollar. A PECULIAR ACCIDENT.

Lee Martin, a resident of Coke county, cut his throat accidentally while shaving himself. He almost completely severed his wind pipe. He fell heavily to the floor and his wife who was in another room came to his assistance. A physician was summoned, the wound was sewed up and he was taken to San Angelo for further treatment. Physicians say that the wound is not necessarily fatal. He was thrown from a horse a few years ago and received injuries from which he never fully recovered. The injuries cause him to have nervous and cramping spells and it is supposed that during one of these attacks he cut himself.

SHIPPED TO NEW YORK.

The remains of Steve Brodie, the bridge jumper and all round sporting man, who died from pulmonary trouble in San Antonio were shipped to New York for burial and were accompanied by his wife and daughter, Miss Inez Brodie, who have been with him during his illness.

The body was escorted to the International and Great Northern depot by a detail from the local lodge of Eagles no funeral ceremony of any kind in engaged in the mining business and

He was a single man about forty years of age, and belonged to one of the best pioneer families. His father was a San Jacinto veteran.

A FREAK OF NATURE.

A freak of nature was found by J. C. Yoakum, near Honey Grove, last week. It was half pig and half calf, the head and body being that of a calf, while the lower jaw, legs and feet were those of a hog. It was dead when found.

TO HAVE ELECTRIC CARS.

It now begins to look like Las Vegas will soon have electric street cars All that stands in the way is the granting of the franchise by the city council. For several days a St. Louis capitalist with an attorney and secretary has been in Las Vegas looking over the They have decided that the investment would be paying and are willing to put in the plant. They have already obtained an option on the track which is already there and over which horse cars are pulled, and the new line will run on the same streets and others. It is believed that the council will grant the franchise, as all the property holders whose property is along the route are willing for them

EDITORS IN JAIL.

The editors of the "Jalisco Libre' in jail on charges of defamation of character. The trouble of the latter arose from a letter which appeared in his paper over the signature of Henry J. Brennan, Brennan denies the authorship of the letter, which accused Edward F. Blewitt, the engineer of the firm of Boyle & Foy who are making municipal improvements in Guadalajara, of having attempted to poison Mr. Brennan in the City of Mexico. The case is a very complicated one and lengthy litigation is liable to grow out of it. Mr. Brennan says he was asked by representatives of "El Paladin" to make a statement for publication and refused. eH was then asked to make one not for publication and he did. Then it was published and his name signed to it. The Jalisco Libre then took a hand in the matter and said too much, but it is held by many that the imprisonment of both editors is illegal on account of it being out of the jurisdiction of the Guadalajara courts. This matter will have to be settled by the courts as well as the rest of the trouble. Sensational facts are liable to be aired in the courts when the cases come to trial.

FOUGHT FOR GIRL.

Otto Jenkins, a former resident of Phoenix, Ariz., has returned to that of which he was a member. There was city from Mexico where he has been tells of a brutal fight which took place dress. Mrs. Brodie stated that her husband in the Nacosari district between an American named Barnes and a Mexican named Morales. The two were infatuated with a native girl and has frequently quarrelled over her. Finally the agreed to fight it out and that the best man should have the girl. They several places with a razor and then met with a few friends some distance They fought nearly three hours and both were frightfully punished. ales finally fell, senseless from the hundreds of blows rained on his body and head by his opponent. He is injured internally and Jenkins said that just before he left he heard that the doctor attending him had said he could not recover. Barnes is also severely injured and suffering greatly from the hammering from the Mexican's fists When he knocked the Mexican out he fell exhausted. Jenkins says the Mexican authorities have taken no steps in the matter.

"Suppose you should, Mrs. Boodle.
"What then?" returned the elated Mr. Boodle, waving the letter in his wife's face. "Suppose you'd dreamed he hadn't? Take some dreams to unwrite this letter, wouldn't it? It would take a pretty powerful dream that could unmake poor old Dick's will, eh?" Here a thought struck him. "By Jove! Wonder if they'll charge me six and eightpence for sending me the information? "You needn't get on your high horse, Benjamin, if you have had a legacy left you," retorted Mrs. B., moving to the window.

NO THANKS, NO TIPS.

An Attempt to Inculcate Gratitude In Metropolitan Walters.

Waiters in the most exclusive of the restaurants have come to look upon the tip as so certainly their right that they have come to assume an air that is offensive in the extreme, says the New York Times. There is no acknowledgment from them for this courtesy on the part of the diner now unless he gives them a bill, when of course the waiter is obsequious in the extreme and generally offensively so when the bill is of an exceptionally large denomination. There is now no "thank you" for a tip in silver. The waiter merely grabs it as a thing that belongs to him.

Naturally there has come a revolt on the part of the diners, and several waiters in fashionable resorts have been receiving a much needed lesson within the past week or two. Men have begun to call waiters back to them when there has been no "thank you" in acknowledgment of a tip and on one pretext or another have asked that the tip be returned as if to examine the change or increase the tip. Then these men, who only demand that a waiter shall at least profess to be thankful for the gift, have quietly pocketed the coin after telling the waiter that as he had neglected to return thanks for the pour boire he was

therefore not entitled to it. This plan has worked well, though it has made the walters who have thus lost their tips through a lack of courtesy surly and inclined to break crockery as a means of relieving their minds, which latter is of course only biting off one's nose to spite his face. Clubmen who are used to respectful treatment at their clubs are determined to wrest the "thank you" from the waiter or withhold the tip, and the plan to force the acknowledgment is spreading rapidly as a means of curbing the discourtesy of waiters. The plan meets with the approval of the managers of the restaurants, who hope to see it universally adopted until surly waiters have learned that the tip is not theirs of right, but is a matter as between a man well served and his servi-

Where Is Wireless Telegraphy? Wireless telegraphy is an art which for several years has been fruitful of promising and even startling results. It has attracted the most earnest efforts of as able a group of trained investigators as is anywhere to be found. But we have yet to learn that wireless telegraphy has been of any tangible use to the world in any of the crises that have blackened the last year of the dying century. The British forces in South Africa have been living in a hornets' nest for the last six months. very largely on account of utterly inefficient means of communication, hard to establish and easy to interrupt. To take the lesson to ourselves our forces in one uncomfortable annex have been bothered not a little in spite of all that a most capable but badly handicapped signal corps could do. And finally who can tell the precious service that would have been rendered if the gallant little band of marines beleaguered or immolated in Peking had taken with them, as might easily have been done, apparatus which would have kept them in instant touch with Tien-tsin and the ill fated relief column?-Electrical World and Engineer.

Specialties of Street Venders. "Have you ever noticed," said Albert Ford of Chicago "how in certain communities certain specialties are sold by the venders? For instance, here in New York hot corn at 5 cents an ear seems to be your specialty. In Atlantic City, where I was recently, a certain peculiar candy called seaside taffy holds the palm. In Chicago we go in strongly for buttered corn balls. In southern cities black 'mammies' sit around and deal you out fried chicken and 'colin pone.' I wonder what it is that in each community causes the street vender to sell different commodities? There ought to be pretty good material for a psychical article by an expert to explain the why and wherefore of certain communities requiring certain kinds of food of the street venders."-New York Tribune.
